Bug#1

The screenshot shows a Jira bug report for 'An error in the location of the link to the main site in the header'. The report is assigned to QA GO, has a Low priority, and is marked as Trivial severity. The description states that the link to the main site of GoIT is in the left corner in the form of a logo, while the expected result is that it should be in the right corner. The environment is Google Chrome v. 114.0.5735.110 on Windows 10. An attachment 'Bug#1.png' is included. The report was created 1 hour ago and updated 1 minute ago.

Title: An error in the location of the link to the main site in the header

Description:

Pre-conditions:

The website - [GO IT](#) is open in the browser

Step to reproduce: - Unsaved changes

1. Check the location of the link to the main site in the header

Actual result:

1. The link to the main site of GoIT is in the left corner in the form of a logo

Expected result:

1. The link to the main site of GoIT is in the right corner in the form of a logo

Environment:

Browser: Google Chrome v. 114.0.5735.110

OS: Windows 10

Bug#2

The screenshot shows a Jira bug report for 'The next question does not open in the navigation menu of the header when clicking on the right arrow after Question 5'. The report is assigned to QA GO, has a Low priority, and is marked as Minor severity. The description states that the user cannot go to the next question by clicking on the right arrow after Question 5. The environment is Google Chrome v. 114.0.5735.110 on Windows 10. An attachment 'Bug#2.png' is included. The report was created 17 minutes ago and updated 17 minutes ago.

Title: The next question does not open in the navigation menu of the header when clicking on the "right" arrow after "Question 5"

Description:

Pre-conditions:

1. The website - [GO IT](#) is open in the browser

2. "Question 1" is selected from the list of questions in the navigation menu

Step to reproduce:

1. Click on the "right" arrow in the header navigation menu and go to "Question 5"

2. Click on the "right" arrow again

Actual result:

1. By clicking on the "right" arrow after "Question 5", the user cannot go to the next question

Expected result:

1. By clicking on the "right" arrow after "Question 5", the user will be able to go to the next question

Environment:

Browser: Google Chrome v. 114.0.5735.110

OS: Windows 10

There is no privacy policy information in the footer when clicking on the clickable text in "Privacy Policy"

Attach

Add a child issue

Link issue

Description

Pre-conditions:

1. The website [GO IT](#) is open in the browser

Step to reproduce:

1. Click on the clickable text "Privacy Policy" in the footer

Actual result:

1. When clicking on the "Privacy Policy" clickable text, a modal window opens, but there is no information about the privacy policy in the language corresponding to the highlighted localization indicator in the header

Expected result:

1. When clicking on the "Privacy Policy" clickable text, when clicked, a modal window opens with information about the privacy policy in the language corresponding to the highlighted localization indicator in the header.

Environment:

Browser: Google Chrome v. 114.0.5735.110

OS: Windows 10
